Recruiting Coordinator
ATOS
Casaneashore
1100 Boulevard Al Qods
Casablanca

Dear Paul Saleh,

I am writing to apply for the Data Analyst position at ATOS that I saw on your website. I study Big Data and Cloud Computing, and I have some experience in statistics and data visualization.

I am excited about the opportunity to work at ATOS because you are known for providing excellent technology solutions. I have experience with statistical models and data visualization tools, which are important for this job.

In my studies, I learned Python and SQL, and I have worked with Hadoop and Spark. I completed a project where I built a data pipeline and a web application on AWS, which helped me learn how to work with complex data.

I believe that my skills can contribute to the success of your team. Thank you for considering my application. I have attached my CV for your review.

Sincerely,

Abdelali Moutawassit
